

# Women's International Cross-Cultural Exchange

Women's World No. 12 December 1986

## Appropriate Technology for Our Earth

## Women's World

*Women's World* is a flexible and dynamic new approach to women's publishing and communication networking. It appears four times a year in the form of **Newsletter**, **Dossier** or **Report**. It focuses on the links between the situation of women in developing and industrialised countries from a feminist perspective.

The **Newsletter** brings news of events, groups and publications about women worldwide, and tells about the latest developments in the Exchange Programme.

The **Dossier** is an anthology of articles, papers and resources on the current theme of Isis-WICCE activities.

The **Report** presents the experience of the Exchange Programme.

*Women's World* is available to Isis-WICCE members and in exchange for other publications.

### Credits

By error we omitted to mention Kathee Myers in the credits for the June issue of *Women's World*. Kathee acted as our consultant for Appropriate Technology during this period and was largely responsible for putting together *Women's World* 10.

This publication was prepared by Anita Blaschak, Pat Dixon, Louanne Dodge, Jane Cottingham, Alison Katz, Marcela Salazar, Monica v.d. Meden and Marta Wyss.

Annual Membership: women's groups and individuals: US\$10; institutions US\$20.
